FRIDAY, MARCH 31.

ANNOUNCEMENTS:

**FOR THE SENATE.**  
We are authorized to announce Hon. W. Fred Long as a candidate for the office of State Senator in this the Seventh Senatorial District, subject to the action of the Republican party.

**FOR REPRESENTATIVE.**  
We are authorized to announce Hon. R. C. Jarnagin, of Beaver Dam, as a candidate for the nomination for Representative, subject to the action of the Republican party.

SCOTT gave as an excuse for his bad voice, speaking in the open air. But he did not attempt to explain how it was that he was so far behind and so ignorant.

"We can see nothing but disaster and defeat in much of the intolerance and bigotry that is being manifested in Democratic circles nowadays,"—Herald.

That is the way we see it, neighbor; glad to be able to agree with you once.

JAMES A. SCOTT, the Democratic candidate for nomination for Attorney General, said in his speech at the court house last Friday that the purpose of the civil war was not known until 1864. A man who does not know more of his country's history than that is not bright enough to be an attorney for even a deserted village.

CANDIDATE SCOTT did not say in many words for once that he was for free silver at 16 to 1, but he said that he was for Billie Bryan. Bryan and free silver at 16 to 1 being synonymous terms from a Democratic point of view Scott meant that he was for free silver and anything else in order to be the recipient of the honor of Attorney General.

JIM DANDY SCOTT said that he had gotten "two or three times as many judgments against corporations as any other lawyer in Kentucky." No other man ever dreamed of that but Scott. Doubtless he is like many other Democratic candidates, some of whom we have known, proud that there was once a Josh Billings who is authority on horn tootin'. "He that tootheth not his own horn the same shall not be tooted" haunts him day and night.

ONE of the sights of the muggy season was witnessed down town last Friday evening when James Andrew Scott put his thirteen in paper bags and departed on horseback for Beaver Dam. Our up-to-date merchants have first-class leggings in stock and surely a man whose income is "three or four times the amount of the Attorney General's salary" should not hesitate to call upon them. His conception might have been so narrow as to lead him to fancy that such an act of commonplace was a part of a candidate's duty, (indeed it was not in marked contrast with his appearance otherwise) but he went away without a following here. We have not heard of a Scott man in all Hartford.

COL. BRYAN, a white metal lecturer of Nebraska, and Perry Belmont, a few hundred times millionaire of New York, are having a little spat that is quite interesting to the bystanders. Mr. Belmont, who is the grand seigneur of a Democratic club, wrote Mr. Bryan a letter inviting him to accept a plate at a Jefferson birthday dinner to be given by the New York club, but Mr. Bryan wrote back that he would not wrinkle a napkin at Mr. Belmont's table unless the New Yorker would agree to let 16 to 1. Mr. Belmont would not agree to it at Mr. Bryan's ratio and started out campaigning for the 1900 nomination on his own account. Mr. Belmont says he is a gold man, but will support a 16 to 1 platform if his party makes it read that way. He says he favors government ownership of pretty much everything, an income and inheritance tax and the initiative and referendum. Mr. Belmont outbids the Colonel for the Populistic vote and is in favor of gold enough to galvanize his other vagaries. Bryan has the wind and Belmont has the waddin' and it will be interesting to see which one gets the goods on the auction day.

THE Goebel managers are threatening to have the Democratic election commissioners resign and let Governor Bradley appoint Republicans to take their places if Goebel is defeated for the nomination for Governor. The Hartford Herald views the proposed action of the Goebel managers with alarm and makes this significant statement:

"Their resignation would bring about a condition of affairs both embarrassing and disastrous to the Democratic party in the State."

Why, oh, why, brother, would it be

disastrous to the Democratic party in the State? You did not mean to plead guilty to the charge that the Goebel election law was gotten up to steal the Governor's chair, did you? If the Goebel election law is such a fair measure that neither political party can gain any partisan advantage from the control of the election machinery, why would it be disastrous for Republican commissioners to succeed Ellis, Pryor & Co.? You know, neighbor—if you don't, may the angels pity you—that Goebel hatched that law to build up a machine by which his lieutenants might nominate and elect him Governor of Kentucky. If the Goebel law is a fair one, why don't you let your State convention endorse it? You know—if you don't, but you do—that the Republicans will force the Goebel election law to the front in the approaching campaign, and why won't you let your party stand by it? It is because you know that free government is outraged and you dare not go before the people as the champion of the wicked statute. You hold up your hands in horror at the threat of your commissioners to turn your vote-stealing machinery over to your political enemies, yet you are too cowardly to let your party endorse it. Hush your twaddle about Republican opposition to the Goebel election law or let your party meet the issue in the open field.

### ADJUSTMENT.

The manner in which Uncle Sam is now proceeding with his business in the Philippines promises an early settlement of affairs in the East, an early adjustment of the Eastern question is longed for by the administration and the people of this country. Not a half settlement, but a complete and final establishment of our authority in the Philippine islands is what the people of the United States demand. Anything short of this will not meet with the approbation of the enlightened people of our country. War at any time with any people is never sought, but always avoided by our government, if possible to do so honorably. But never in the history of our illustrious past have the pride and honor of our people allowed the flag of our common country to be assailed without proper vindication. By the terms of the late treaty between the United States and Spain the Philippine islands became a part of the territory of the former country. From the standpoint from which the nations of earth view the situation, it would be no greater thrust at the honor of the nation for the United States to allow one of the forty-five States of the Union to rebel and secede than to quit the East with a rebellion in its territory. A rebellion within our territory is deplorable indeed, but the supremacy of national authority must be established and recognized wherever the Stars and Stripes may float. Every true American citizen stands ready when it becomes necessary to defend the national honor, to quit the peaceful pursuits of life and leave a happy home to be fought for by his country. Our unpleasant relations with the Philippines was not brought about by the government, but was the outgrowth of an ambitious savage leader's desire to rule, augmented by unscrupulous politicians like Hoar, Bryan and Mason and by that part of the press of our country so narrow in the conception of its duty to the nation as to express sympathy for its enemies and to oppose every act of the government in suppressing the insurrection. Let us hope for an early triumph of our army and the establishment of a civil and liberal form of government in the archipelago.

### SCOTT'S SPEECH.

The speech of James A. Scott, delivered at the court house last Friday, was the most complete failure ever made in Hartford. About one hundred and fifty people heard him and the universal opinion of all unbiased Democrats and Republicans was "a failure." He opened his speech by giving a history of his life. In the course of that brief history he said that it was not the \$4,200 salary of Attorney General that he wanted. The income from his law practice, he said, was three or four times that amount. He declared that it was the honor of the office that he sought. Turning to politics he began far away from present issues and touched upon both sides of every question which he attempted to discuss.

He scaled the heights of the civil war and brought to us knowledge of facts about which other men never heard. He declared that the policy of the first Lincoln administration was not made known until 1864 when "the cry of the constitution, the Union and the Flag" had stirred the people to loyalty and called forth the brain and sinew of the land to support the government.

He declared that the right of the South to secede was never questioned and that the rights of the people were taken from them. "A man so ignorant as all that a candidate for Attorney General of Kentucky?" Yes. The same man said that Cleveland was not a Democrat; that Cleveland allowed 49 of every 50 officers in his administration to be Republicans; that gold was not fit for money; that the

sound money Democrats had deserted Jeffersonian Democracy. "What a man so narrow in conception asking a great trust of Kentuckians?" Yes, sir, he is a candidate for Attorney General.

### "A LITTLE MORE TRUTH."

After having to take water on a wild assertion made relative to the Goebel election law, the Herald seeks to evade the odium of a false statement by dodging the issue and calling upon Col. Wedding to "tell THE REPUBLICAN of all the corruption and untruths he knows to come from the operation of the Goebel election law." This is not a personal, but a controversy between newspapers, THE REPUBLICAN does not wish to bring any man to its assistance. It is able to do battle for itself. THE REPUBLICAN has never disputed the fairness of the last election. That was not the prey for which it was created. The Goebel election machine was created to grind out Democratic State officers and whatever else the people might tolerate. The last election was not a test of the law by any means. It was only a bad. Under the operation of that law it is possible for the most gigantic frauds to be perpetrated.

THE REPUBLICAN has said that it is an unfair law and gives the party in power undue advantages. It reaffirms this statement and goes a step further. The Goebel election law is the most corrupt party measure ever written upon the statute book of the commonwealth. The following are the reasons upon which the assertion is based:

1. The State board of election commissioners may all be of the same political party. They are now.
2. The State board under this law constitutes the tribunal of last resort for most all contested election cases. Being made up of partisan politicians it is not capable of an unbiased judgment.
3. The State board may remove a member of the county board at pleasure.
4. The State board may canvass the returns from the several counties of the commonwealth in a secret chamber without a member of any party not in harmony with the board present.
5. They are not bonded for upright conduct, neither is the county board.
6. The members of the county board may all be of the same political party.
7. The county board may be all of one political party, and being so may perpetrate fraud in canvassing election returns. This the law permits in the absence of a representative of any other party.
8. It places the sacred suffrage of freemen at the bidding of unscrupulous politicians.

These statements are true. How can an honest man knowing this endorse and defend such a measure?

### FROM THE STATE PRESS.

The rumor that Spain is going to recognize the Philippines is not worth much, even as a rumor. In order to recognize a Filipino you must first catch your Filipino.—Confederate Journal.

Whatever other faults he may have, Candidate Goebel wants it known that he will not ride into the governor's office on a cow catcher. Mr. Goebel will be in high luck if he succeeds in getting through on the bumper.—Louisville Commercial.

Friend Woodson, of the Owensboro Messenger, is flooding Hopkins county with Goebel literature in the shape of copies of his paper, the Messenger. Hopkins county, however, is not to be Goebellized this time and Urey is wasting a heap of good paper in the attempt.

Nebraska is a remarkable State in some respects. W. H. Grigg one of their noted lecturers, has a huffy recently born which has no eyes, and no place for them. They have another curiosity, a man full grown and good shape, &c., but he has some things wrong with his head. He is on exhibition most of the time in different States. He has never succeeded well, but if he will add a monkey and a hand organ he may.—Elizabethtown Leader.

The court of appeals has decided by a unanimous vote that Attorney General P. Watford didn't know much law when he gave the State Auditor the official opinion that he should pay over to Max Barker for \$10,000 to \$12,000 a year as commissions for collecting license taxes which Barker had no more to do with collecting than the man in the moon. But Barker in this manner got \$40,000 out of the State treasury to which he was not entitled.—Messenger.

## FILIPINOS FLEEING.

Driven From Malabon, Their Stronghold, They Leave the Place in Flames.

Manila, March 27.—9:15 a. m.—The Filipinos are burning their stronghold at Malabon, and their forces are fleeing from the city in the direction of Malolos.

Gen. M'Arthur's division is pushing toward Malabon. The insurgents will make their last stand probably at Malolos.

PUSHING THE REBELS BEFORE THEM  
Washington, March 26.—The War Department to-night received the following:

Manila, March 26.—Adjutant General, Washington: M'Arthur's advance beyond new Canayan, two miles beyond Polo, nine miles from Manila and fifteen miles from Malolos; railroad will be repaired to advance point to-morrow and troops applied by car; M'Arthur will press on to-morrow; is now in open country. Insurgents stoutly resisting behind succeeding lines of entrenchments, from which troops continually drive them. City perfectly quiet, and native inhabitants appear to be relieved of anxiety and fear of insurgents. Capt. Kravenhuh, Commissary Lieutenant, third artillery, mortally wounded.

DETERRED BY ROUGHNESS OF COUNTRY.  
Washington, March 26.—The following cablegrams from Gen. Otis were received by the War Department this morning:

Manila, March 26.—Adjutant General, Washington: Attacks on hall and pumping station last night easily repulsed. M'Arthur with moving column has driven enemy, but can not gain point north of Polo on account of roughness of country; must strike railway north of that point; this will enable most of Aguinaldo's troops to escape north; still he may oppose, as best of his army, consisting of released prisoners of war, former native Spanish troops, concentrated there; this northern army will be pressed south of the city. Three thousand insurgent troops from southern Luzon provinces have concentrated. Lawton will take care of them. Affairs satisfactory.

OUR LOSS MODERATE; ENEMY HEAVY.  
Manila, March 26.—Adjutant General, Washington: Entire casualties of yesterday, one officer, twenty-five enlisted men killed; eight officers, one hundred and forty-two men wounded, officer killed, Capt. Stewart, first Colorado. List cabled immediately.

To day's fighting south and around Polo determined. M'Arthur with three brigades united, having artillery cavalry, engaging enemy. Col. Egbert, twenty-second infantry, killed. Our loss thus far moderate; enemy's heavy. Army gunboats on coast and in estuaries, west and north of Polo very efficient; troops in excellent condition and spirits.

THEIR STRONGEST INTRENCHMENTS.  
Later in the day the following was received:  
Manila, March 26.—Adjutant General, Washington: 4:30 p. m.: M'Arthur has driven enemy strongly intrenched in large force north of Polo; will continue to press him; insurgents have strong intrenchments from Calocan to Malolos, which have taken them months to construct. Otis.

Manila, March 27.—Adjutant General, Washington: MacArthur holds Maricao; severe fighting to day and our casualties about forty. The insurgents have destroyed bridges, which impeded progress of train and artillery.

Our troops met concentrated insurgent forces on northern line, commanded by Aguinaldo in person, and drove with considerable slaughter. They left nearly 100 dead on the field, and many prisoners and small arms were captured.

The column will press on in the morning.

New York, March 29.—A dispatch to the Journal, dated Manila, Wednesday, says:

Bocave has been taken by our troops. The railroad bridge is uninjured. Gen. MacArthur is now within eight miles of Malolos.

A dispatch to the Herald from Manila says the insurgent capital has been moved from Malolos to San Fernando.

The insurgents burned Bulacan Tuesday afternoon.

The monitor Monadnock shelled Los Pinos, south of Manila, Tuesday noon.

Maj. Gen. Otis sent the following additional report of the movement yesterday to Manila:  
Manila, March 28.—Adjutant General, Washington: MacArthur had severe fighting yesterday afternoon beyond Maricao. Brilliant charge by South Dakota, led by Frost, against famed troops of Aguinaldo, brought from Malolos. Repulsed enemy with slaughter. Adj. Lion and Lieut. Adams and Morrison and four enlisted men of that regiment killed. Lieut. McClelland and twenty-two enlisted men wounded. Loss yesterday mostly confined to this regiment.

Partial destruction of railroad, which is being rapidly repaired, impedes MacArthur's progress. Supply railway trains have reached Maricao, and MacArthur is pushing on. Our small gunboats are in Bulacan river, where great execution was done yesterday. They will relieve pressure on MacArthur's front materially. Troops in excellent condition and spirits.

Proclamation, signed Luna, Gener-

al in-Chief of insurgent forces directs all towns abandoned be burned. In consequence thereof much country north in flames.

OTIS  
The above dispatch was received in Washington at 2:40 a. m., March 28. It is observed that it refers only to the fighting of yesterday, nothing being said about the operations of to day, March 28. Gen. Greely, Chief Signal Officer, has received a dispatch from Manila, sent this morning, which is confined to routine affairs.

The Frost named in Gen. Otis' dispatch is Capt. A. S. Frost, of the Twenty-second infantry, now Colonel of the First South Dakota volunteers. The three officers killed in that regiment are Jonas H. Lion, First Lieutenant and Adjutant; First Lieut. Frank H. Adams and Second Lieut. Sydney R. Morrison. The officer wounded is First Lieut. Paul D. McClelland.

A dispatch from Gen. Otis announces that the Third infantry has taken the place of the Twenty-third infantry, which was at the front. Two battalions of the Twenty-third were brigaded with the Oregon volunteers and have seen severe fighting. The Twenty-third has been recalled to Manila.

The policy of The Ladies' Home Journal, in its religious department, seems to be always to engage the pen of the man most immediately prominent in the eyes of the religious world. Thus it has had the services of Mr. Beecher, Doctor Talmage, Doctor Parkhurst, fan MacLaren, and now it will have those of Dr. Newell Dwight Hillis, the new pastor of Plymouth Church, in Brooklyn. Doctor Hillis has given the Journal a series of articles upon which he has been working for over a year previous to his Eastern call, and the first of these articles will be published in the next issue of the magazine. The series is all connected in thought, and present the general subject of "The Secrets of a Happy Life."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. ### Running for Offices.

The Mt. Sterling Sentinel Democrat has found a man who gives his experience while running for an office which he did not win by a large majority. He submitted the following account of expenses incurred:

Lost 4 months and 33 days canvassing, 1,349 hours thinking about the election, 5 acres of wheat, 2 whole crops of sweet potatoes, 4 sheep, 5 shoats and 1 beef given to barbecue, 5

front teeth and a considerable amount of hair in a personal skirmish, gave 97 plugs of tobacco, 7 Sunday school books, 2 pairs of suspenders, 4 calico dresses, 7 dollars, and 13 baby rattles, told 2,889 lies, shook hands 23,476 times, talked enough to have made in print 1,000 large volumes size of the patent office reports, kissed 126 babies, kindled 13 kitchen fires, cut 3 cords of wood, pulled 475 shocks of fodder helped shuck 6 wagon loads of corn, dug 14 bushels of potatoes, toted 27 buckets of water, put up 7 stoves, was dog hit 3 time, watch broken by baby, \$3 to repair, loaned 150 pounds of bacon 57 pounds of butter, 32 dozen of eggs, 2 umbrellas, 12 lead pencils, 1 Bible dictionary, 1 mowing blade, 2 hoes, 1 overcoat, 2 boxes of paper collars, none of which have been returned. Called my opponent a perambulating liar,—doctor's bill, \$10. Had five arguments with my wife—results: 1 flower vase smashed, 1 broom handle broken, 1 dish of hash knocked off table, 1 shirt bosom ruined, 2 hands full of whin scraped out, 10 cents worth of old kung plaster tough. Besides spending \$1,868

## "He That Stays Does the Business."

All the world admires "staying power." On this quality success depends. The blood is the best friend the heart has, and "faint heart" never won anything. Hood's Sarsaparilla is the best friend the blood ever had; it cleanses the blood of everything.

If you would be strong in the race of life and "do the business," you must "stay." Hood's Sarsaparilla makes the struggle easy. It gives clear, strong blood; hence perfect health ensues.

**Hives.**—The itching of hives which troubles so many in the summer months, comes from impure blood. Hood's Sarsaparilla and Hood's Pills cured me. Mrs. Mary Iscott, 235 South Wolf St., Baltimore, Md.

**All Run Down.**—I was as tired in the morning as at night, had no ambition, weak and run down. Three bottles of Hood's Sarsaparilla built me up and cured me. Can eat well and sleep well. Mrs. Chas. Mox, 418 Madison St., Sandusky, Ohio.

**Female Troubles.**—I would have welcomed death any time as a relief from the sufferings of the womb and other serious troubles. The best physician said my case was hopeless. I stopped taking everything else and took Hood's Sarsaparilla. New life came to me and I gained weight and am perfectly well and strong. Mrs. Emma J. Figgins, Lonedale, Missouri.

**Hood's Sarsaparilla**  
**Never Disappoints**

Hood's Pills cure liver bile, are non-irritating and only cathartic to take with Hood's Sarsaparilla.

Col. C. M. Barnett is in town this week. Mrs. Barnett who has been sick for several days is improving now.

The blanks upon which the census of school districts is to be taken, were sent out by the County Superintendent on Wednesday's mail.

Schroeter, the leading Green river Photographer, is now at Hartford. Call and see his work. His Photo Buttons are the fad of the day, also his Photos are finer than ever.

Mr. Lawrence Klein, who has been on the sick list for sometime, has grown worse and is now dangerously ill. He has been afflicted with a complication of diseases for sometime.

Mr. Tom Calloway, who lived near Dundee, died of pneumonia last week. Tom was a bright, pleasant young man and his death was a misfortune to the community in which he lived. He was 27 years old and leaves no family.

Mr. B. D. Ringo was appointed Commonwealth's Attorney pro tem at Hawesville last Monday, vice J. Edwin Rowe on a writ. Mr. Ringo is an able lawyer and an honorable gentleman and Judge Owen made a wise selection of a guardian of the interests of the Commonwealth.

Mrs. Eliza Ragland, wife of Mr. J. M. Ragland, of Rosine, died of heart failure last Saturday and was buried in the Rosine Cemetery Sunday. Mrs. Ragland was a kind Christian lady, and after an exemplary life of a little more than three score years, has gone to her reward. She leaves a husband and eleven children to mourn her loss.

The Sunday School Convention convenes at Fordville, April 19. Upon the close of its session the District Conference of the M. E. Church will be commenced. The work of the conference will close April 22 with a lecture by Rev. Sam Jones. This promises to be one of the greatest occasions for Fordville and community of the season. Everybody who possibly can should attend.

Mr. Oscar T. Hines died at his residence in Rockport Monday morning. He was sick only four days and it was thought had apical meningitis. He was a prominent Mason and was buried by that order Tuesday in the Rockport cemetery. Mr. Hines was a pleasant Christian gentleman, who left the world happier and better by his having lived in it. He was about 45 years old and leaves a wife and four children to mourn his death. May the God, who called the husband and father hence, heal the wounded hearts of his wife and orphan children.

Mr. J. M. Mattingly, of Hartford, has just secured from the patent office at Washington a patent on a floor packer, which he thinks will revolutionize the packing department of the millinery industries of the country. The chief defect of the packing process now in use is that it destroys the even granulation of the floor, which seriously impairs its wearing qualities. Mr. Mattingly's invention preserves the even granulation of the floor and at the same time packs twice as much flour into a given space as the packers now in use. The inventor has submitted drawings of his invention to some of the largest millers of the country and has already had some liberal offers for his patent.

The program of the joint session of the College Societies rendered at College Hall last Friday night was excellent, interesting and each actor did his work well. The recitation by Miss Lucy Townsend was most excellent. It was delivered in her usual happy style and highly complimented by an appreciative audience. The work of the Societies is a great feature of the school and the work which the young people are doing is very commendable. The influence of the Societies is elevating and refining. Every young man and every young lady of town should join.

Three or four months ago Mrs. Tom Iler, of near Centertown, bought a lot of carpet rags from Mr. Marion Calvert, of that community, brought them home and laid them away for spring work. Recently Mrs. Iler began working up her carpet material and found wrapped up in it a tin box containing two 20-dollar gold pieces, one 20 dollar bill, a silver half dollar and several notes. The purse was promptly returned to Mr. Calvert. It is safe in these days of prosperity to entrust savings to the banks than to leave it lying about the barn, piled up with the wood on the woodyard or even wrapped up in carpet rags.

## Bingham.

Ralph Bingham made his fourth appearance on the stage in Hartford Monday night. Notwithstanding the incessant downpour of rain, quite a large number of people came out to hear him. Ralph captured the audience with the first number of his program and for an hour and forty-five minutes round after round of laughter and applause greeted him. A more appreciative audience never assembled in Hartford, nor was any ever more highly entertained. An evening with Ralph means an evening of laughter and mirth. His entertainment consisted of music, song, impersonation and story telling. Bingham's impersonation of "Laska" alone was doubly worth the admission. Ralph Bingham is a natural genius, brim full of wit and humor. He is the marvel of the age. We hope that we may be able to have him with us again in the near future.

Good health is worth more than anything else to you, and every bottle of Hood's Sarsaparilla containing good health.

## DIED.

On March 21, 1899, Mrs. Missouri Josephine Elmore, wife of Prof. J. L. Elmore and daughter of Mr. and Mrs. Jas. A. Park, at the age of 21 years and 8 months.

Mrs. Elmore's friends were numbered only by her acquaintances and to them her death comes as a personal loss. She was a cultured musician and gifted singer, but only around the fireplace could her real worth be known. She was buried at Union Grove Church of Christ, of which she was a consistent member.

During her illness, lasting four years, her Christian charity and faith supported her. No words of complaint was made and when the end came it was in quiet and peace as described by her favorite poet:

"Sunset and evening star,  
And one clear call for me!  
And may there be no moaning of the bar  
When I put out to sea."

May that God in whose goodness and mercy she trusted, comfort and guide her husband, children, and family.

## Your Best Interests

Will be served by making sure of health. It will be a loss of time and money to be stricken with serious illness. Take Hood's Sarsaparilla and purify your blood. In this way all germs of disease will be expelled, sickness will be avoided, and your health will be preserved. Isn't this a wisecourse?

Hood's Pills are the only Pills to take with Hood's Sarsaparilla. Price 25 cents.

**Killed His Wife As He Slept.**  
Tacoma Wash., March 26.—Dr. Charles Corey shot and killed his wife this morning while the two were lying asleep. Corey was ill, and his story of the affair is that he was laboring under a nightmare, believing his wife was being pursued by a stranger who was intent on killing her. In his dream, Corey says he followed the two from Tacoma to Washington, and just as he fancied the man was about to stab her fired twice with his revolver. He awoke with a start to find himself sitting in bed with a smoking revolver in his hand. Corey had drawn his revolver from its place under his pillow and killed his wife.

The relation between Corey and his wife were very affectionate, and the authorities believe his story. He is nearly crazy with grief, and friends are watching him to prevent his suicide. Mrs. Corey was a leader in the social circle circles. She was afraid of a revolver, and frequently suggested that she would some day be killed by one. Corey was not arrested.

## LExINGTON, KY.

March 26.—As I have not seen any letter from State College for some time, I will attempt to give some of the news.

Health is good, except a few lingering cases of measles.

We have had some nice weather, and, of course, we have had enough drilling. The Major generally has three companies to drill each day. Our officers are fine fellows, but march us till we are out of breath, then have us to beat time for a rest.

I visited the home of Henry Clay. It is about two and a half miles from the college and situated on the pike one and one-half miles East of the post-office. It is a very beautiful place. The house is overgrown with vines. The grounds which surround the house, have a luxuriant growth of blue grass, and are shaded by pines and various other kinds of trees. I brought back with me a piece of pine as a memento. I have not yet had an opportunity to visit the cemetery to see the monument that has been erected to his honor.

We will now pass to College work. The first ten weeks term, since Christmas, closed on March 17th, with a final examination, which caused much trouble for the merry boys and girls who had lately been so gay and bright, but they that have studied seemed to be in better spirits, and easily passed. The re-classification, has been arranged and all have settled down to work again. This is certainly a fine school. I wish Ohio county would send more students. There are no reason why she can not, because it only takes about sixty-five or seventy dollars to get one through a five months term, and that is as cheap as students can go to a good school any where.

The societies are doing excellent work. They have held their annual contests. Mr. A. F. Crider, of the Union Liberty Society, won a medal. His subject was "The Warning of the Southern Confederacy." Mr. L. D. Threlkeld, of Patterson Society, won a medal on the 25th of this month. His subject was "A Man, a Soldier and a Hero."

As the bugle has sounded I will conclude. Success to THE REPUBLICAN and its noble editors.

## The Doctor Confesses.

An honest physician realizes that no one man knows it all—that it is the combined effects of ages which produces the highest perfection in any field of research—and he will let no old fashioned scruples of professional etiquette nor prejudice of opinion stand in the way of his giving to his patients the very best service and advice which lies within his power. When such a physician finds that his own remedies and methods of treatment are faulty he does not hesitate to confess his errors and to adopt the better remedies and better methods of those whose success has been fully proven.

It thus happens that hundreds of physicians throughout the country are today advising patients to use Dr. Miles' Nervine for the cure of La Grippe and it is terrible after effects, such as nervous prostration, dyspepsia, dizziness, weakness, heart trouble and all forms of exhausted vitality. An instance is recorded in the following letter from Mrs. S. Morehouse, Phoenix, N. Y., who writes: "The fever left my stomach very weak and I could scarcely eat the lightest kind of food. I had a dreadful burning sensation at the base of the brain, but my greatest trouble was sleeplessness. My doctor said it was nervous prostration, and when he saw that the medicine he gave me had no effect whatever, he advised me to try a bottle of Dr. Miles' Nervine, as he knew it was a good remedy for nervous troubles. I followed this advice and in a short time I was restored to perfect health."

A trial package of Dr. Miles' favorite treatment for the grip, consisting of Dr. Miles' Nervine, Dr. Miles' Anti-Pain Pills and Dr. Miles' Nerve and Liver Pills, will be sent absolutely free of cost to any person sending name and address on a postal card, requesting the sample, and mentioning the name of this paper. Address Dr. Miles Medical Co., Elkhart, Ind.

## You Can't Dodge Them

Did you ever try to dodge the rain-drops? Did not succeed very well, did you? It's just as useless to try to escape from the germs of consumption. You can't do it. They are about us on every hand and we are constantly taking them into our lungs.

Then why don't we all have this disease? Simply because these germs cannot gain a foothold in a strong throat and lungs. It's when these are weak that the germs master. The body must be well supplied with fat. The danger comes when the blood is poor and the body is thin. If your cough does not yield, and your throat and lungs feel raw and sore, you should not delay another day. Take

## Scott's Emulsion

of Cod-Liver Oil with Hypophosphites at once. It will heal the inflamed membranes and greatly strengthen them, as well. The digestion becomes stronger, the appetite better and the weight increases. The whole body becomes well fortified and the germs of consumption cannot gain a foothold.

It's this nourishing, sustaining and strengthening power of SCOTT'S EMULSION that has made it of such value in all wasting and exhausting diseases.

See and get on all druggists. SCOTT & BOWNE, Chemists, New York.

## NOTICE for the Benefit of the PUBLIC!

### Cyclone at Barrett's Ferry, Ky.,

Has rushed in on G. B. Miles' Entire Stock of Dry Goods, Notions, Boots, Shoes, Hats, Caps, Groceries and Gents' Furnishing Goods and has blown the Prices Down Below Zero. I have enlarged and repaired my house and am now in better position to give my customers bargains than I have ever been since I have been in business. I began business 2 1/2 years ago with a \$150.00 stock. I have increased to \$1,500.00 and owe the praise of same to my customers. When I first began I sold at 25 and 50 per cent. profit. I went on that way some time and reduced my profits to 15 and 25 per cent. and then reduced to 12 1/2 per cent. and have gained sufficient trade by each transaction to make more money by the latter and now I propose to reduce my profits again to 8 per cent. This looks small and some will say that I can't do this nor won't do it, but I will show my bills and do what I say and will also explain why I can do it.

FIRST—Bear in mind that I get salary enough from the railroad company as agent for them and from the postoffice to pay all my family expenses and rent.

SECOND—By this reduction I will gain trade sufficient that I can discount my bills and the discount will pay the freight on my goods and put them in the shelves.

THIRD—My receipts now are \$400.00 a month and at 12 1/2 per cent. I make clear \$50.00 a month and now if I can get my trade doubled and my receipts run \$800.00 a month, you see I will clear at 8 per cent. \$64.00 and save my customers money and make \$14.00 more myself. So you see I can do what I propose.

I will pay the Highest Prices for Produce at all times and want 10,000 ties by the first of July, for which I will pay 21c and 25c, one half cash and balance in trade on delivery or 20c and 24c cash on delivery.

## Consult Your Minds And Each Other

And come and price my goods before buying and I will show you that you can save money and get the Best Goods that you ever bought for the money. I have the nicest line of Shoes and Hats that ever has been brought to Barrett's Ferry, and at prices that will make them fit neat and nice. Calicoes that will soon be out of season must go at 3c a yard and values in everything that I carry. 20lbs No. 7 sugar for \$1.00. Arkhuckle coffee at 1c. Thanking you for past favors and soliciting a continuance of same, I am, yours always ready to please.

**G. B. MILES.**  
These Prices Begin February 20, 1899, and continue balance of the year.

### THIEVES' SCHOOL.

There is Such an Institution in Japan—It Has Long Flourished.

There are two classes of children in Tokyo who become professional beggars, viz., those small unfortunates who have run away from home in order to escape barbarous treatment from inhuman parents, whose nomadic instincts induce them to get rid of their too numerous offspring, and thus avoid the trouble of dragging them around from one village to another. These latter confide their children to old professional beggars, who soon teach the young outcast to earn his own livelihood.

Some of these chiefs of the mendicant procession enjoy a wide reputation, and have scores of beggars and thieves in embryo under their tutelage. There even exists in Tokyo a well known house, Kodomo no Souryouya, which is a regular agency for the letting out of children.

Beggars of 40 or 50 years of age (nearly always thieves hors de combat, and crippled in some way or other) call upon this firm every day and hire a child of four or five years old, in whose company they prey upon the charity of the public. The price per day for a child is from 3 to 10 cents (3 to 10 cents), and as the object of the child is to inspire pity, weak and alluring children fetch the highest prices.

From 5 years upward the children do their begging by themselves. At the age of 14 or 15, under the pretext of gathering waste paper and other rubbish, they prow around the court yards of the houses and commence to steal.

Their usual weapon is a long stick, the end of which is steeped in glue, and with which they are very adroit in removing trifles from open windows.

At 16 they are taught the art of picking pockets with skill and dispatch, and from being beggars rise to the rank of botabakiki (pickpockets) or kopsall (thieves).

There is no real difference between the thief and the beggar. The child commences as a beggar, becomes in due course a thief and takes to begging once more when old age overtakes him.

Daily lessons are given to the young thieves by the chiefs of each band, and the apprenticeship lasts as long as from 12 to 19. The whole thing has been reduced to a regular system, pocket picking and burglary are carefully taught in every detail.

One specialist spent a year in Berlin in order to acquire perfection in the art of subtilizing a purse. Since this gentleman has returned to Tokyo his class has been very successful, and has a hundred intelligent pupils at the present moment.

The whole thieves' law is regulated by a code of laws, and these are administered with the utmost sternness. The youngest thieves keep 10 per cent of their earnings, the better class of pickpockets 40 per cent., and some 50 per cent. or even 60 per cent. The surplus of the profits is invested in the teaching of pupils, and employed by the chiefs of the community deem necessary for the general well-being.

Weak Eyes Are Made Strong, dim vision made clear, eyes removed and granulated lids or sore eyes of any kind speedily and effectually cured by the use of Sutherland's Eagle Eye Salve. It is put up in tubes, and sold on a guarantee by all good druggists. For sale by Z. Wayne Griffin & Co.

If a man cheats you, cease to deal with him; if he is abusive, quit his company; if he slanders you, take care to live so that no body will believe him. No matter who he is or how he misuses you, the wisest way is to let him alone; for there is nothing better than this calm, cool and quiet way of dealing with wrong we meet with. Lies unheeded will die; fires unattended will burn out; and quarrels neglected become as dull as the all but extinct volcano.

Girls, don't hang around the depot, unless you are going away or meeting friends. Don't go to church and take a hack seat with your escort, and then whisper and giggle during the service. Don't be loud, boisterous and slangy. Stand on your dignity; don't from acquaintance quickly; don't throw yourself into the arms of every good looking, well dressed stranger who comes to town. Be womanly, be modest, be thoughtful and serious at all times, don't unsex yourselves and thus lose woman's sweetest charm. Don't regard long legged, awkward brother as a nuisance; don't turn up your nose at your old fashioned father and his grammar, and about all don't play "a hot time" on the piano, when your good old mother is having "a hot time" at the washtub. It is too suggestive.

She had explained to the maid the use of the buglar alarm, the fire alarm and police whistle. She had put the cat and the dog in the cellar, wrapped a newspaper around the canary's cage. And then she was ready.

She locked the inside door and tried it. Then she opened the outside door and tried the inside door again. Then she locked the outside door again, tried it, and they started.

They had proceeded two streets, and her husband had just begun to congratulate himself that she really was ready, when she suddenly stopped.

"John," she said, "I must go back and tell Bridget to be sure and not wake the baby up unless he wakes himself."

## WOMAN EXECUTED.

Went to The Chair Quietly And Died Instantaneously

Mrs. Martha Pince was executed in Sing Sing Prison recently. She was the first woman to die in the electric chair in the State of New York, and she went to her death quietly. Death was instantaneous. Only two shocks were given. State Electrician Davis threw down the lever at exactly 11.01 a. m. The voltage of the current was 1,760, and it was continued for four seconds. It was then gradually diminished to 200 voltage, which was continued for fifty-six seconds. Dr. Irvine, the physician of the prison, examined the woman and then ordered a second shock. That was the same as the first in power, continued and for the same length of time. The second shock has always been administered at Sing Sing.

## NOTICE for the Benefit of the PUBLIC!

### Cyclone at Barrett's Ferry, Ky.,

Has rushed in on G. B. Miles' Entire Stock of Dry Goods, Notions, Boots, Shoes, Hats, Caps, Groceries and Cents. Furnishing Goods and has blown the Prices Down Below Zero. I have enlarged and repaired my house and am now in better position to give my customers bargains than I have ever been since I have been in business. I began business 2 1/2 years ago with a \$150.00 stock. I have increased to \$1,500.00 and owe the praise of same to my customers. When I first began I sold at 25 and 50 per cent. profit. I went on that way some time and reduced my profits to 15 and 25 per cent. and then reduced to 12 1/2 per cent. and have gained sufficient trade by each transaction to make more money by the latter and now I propose to reduce my profits again to 8 per cent. This looks small and some will say that I can't do this nor won't do it, but I will show my bills and do what I say and will also explain why I can do it.

FIRST—Bear in mind that I get salary enough from the railroad company as agent for them and from the postoffice to pay all my family expenses and rent.

SECOND—By this reduction I will gain trade sufficient that I can discount my bills and the discount will pay the freight on my goods and put them in the shelves.

THIRD—My receipts now are \$400.00 a month and at 12 1/2 per cent. I make clear \$50.00 a month and now if I can get my trade doubled and my receipts run \$800.00 a month, you see I will clear at 8 per cent. \$64.00 and save my customers money and make \$14.00 more myself. So you see I can do what I propose.

I will pay the Highest Prices for Produce at all times and want 10,000 ties by the first of July, for which I will pay 21c and 25c, one-half cash and balance in trade on delivery or 20c and 24c cash on delivery.

### Consult Your Minds and Each Other

And come and price my goods before buying and I will show you that you can save money and get the Best Goods that you ever bought for the money. I have the nicest line of Shoes and Hats that ever has been brought to Barrett's Ferry, and at prices that will make them fit neat and nice.

Callers that will soon be out of season must go at 3c a yard and values in everything that I carry. 20lbs No. 7 sugar for \$1.00. Arkuck coffee at 1c. Thanking you for past favors and soliciting a continuance of same, I am, yours always ready to please.

## THIEVES' SCHOOL.

There is Such an Institution in Japan—It Has Long Flourished.

There are two classes of children in Tokyo who become professional beggars, viz., those small unfortunate who have run away from home in order to escape barbarous treatment from indulgent parents, whose nomadic instincts induce them to get rid of their too numerous offspring, and thus avoid the trouble of dragging them around from one village to another.

These latter confide their children to old professional beggars, who soon teach the young outcast to earn his own livelihood.

Some of these chiefs of the mendicant procession enjoy a wide reputation, and have scores of beggars and thieves in embryo under their tutelage. There even exists in Tokyo a well known house, Kodomo no Souryou, which is a regular agency for the letting out of children.

Beggars of 40 or 50 years of age (nearly always thieves horsed combat, and crippled in some way or other) call upon this firm every day and hire a child of four or five years old, in whose company they prey upon the charity of the public. The price per day for a child is from 3 to 10 ten (3 to 10 cents), and as the object of the child is to inspire pity, weak and ailing children fetch the highest prices.

From 5 years upward the children do their begging by themselves. At the age of 14 or 15, under the pretext of gathering waste paper and other rubbish, they prow around the court yards of the houses and commence to thieve.

Their usual weapon is a long stick, the end of which is steeped in glue, and with which they are very adroit in removing trifles from open windows.

At 16 they are taught the art of picking pockets with skill and dispatch, and from being beggars rise to the rank of botanajiki (pickpockets) or kopperari (thieves).

There is no real difference between the thief and the beggar. The child commences as a beggar, becomes in due course a thief and takes to begging once more when old age overtakes him.

Daily lessons are given to the young thieves by the chiefs of each band, and the apprenticeship lasts as long as from 12 to 19. The whole thing has been reduced to a regular system, pocket picking and burglary are carefully taught in every detail.

One specialist agent a year in Berlin in order to acquire perfection in the art of subtilizing a purse. Since this gentleman has returned to Tokyo his class has been very successful, and has a hundred intelligent pupils at the present moment.

The whole thieves' colony is regulated by a code of laws, and these are administered with the utmost sternness. The youngest thieves keep 10 per cent. of their earnings, the better class of pickpockets 40 per cent., and some 50 per cent. or even 60 per cent. The surplus of the profits is invested in the teaching of pupils, and employed as the chiefs of the community deem necessary for the general well-being.

At his home ten miles from Bowling Green, Ky., Mr. John M. Young celebrated his one hundred and sixtieth birthday on Saturday, March 18th. Mr. Young is an Irishman, and came to America in the early forties. He settled near Goshen, Warren county, and has lived there ever since. He is very feeble. He cast his first vote for James K. Polk for President.

The Atlanta Constitution said in a recent issue that the New York daily papers, with one exception, used Mr. Thos. E. Watson's Story of France merely as a means for showing their personal animus, and made no pretence to review the work. The "one exception" was the New York World. It is interesting and instructive to note that the great papers in the Western, Southern, and Middle States, have treated Mr. Watson's work without reference to his attitude in American politics.

Fought in the Pen.

It is reported that Rev. Gregory Doyle and Prof. McClure, who were convicted of the crime of causing the death of Lydia Bratcher, in Hart county, and sent to the penitentiary at Eddyville, are not getting along very smoothly. They fought in the pen last Thursday, during which Doyle, the preacher, was getting the better of McClure, when they were separated. It will be remembered that Doyle requested, before they were sent from Muncieville, to be separated from McClure, that he was afraid of him.—Glasgow Republican.
